FALL 1919

SPRING 1920

# FALL PRICE LIST

FOR THE TRADE ONLY

*Issued September 16th, 1919*

## Jackson & Perkins Company

*Nurserymen and Growers of Florists' Plants  
Wholesale Only*

Newark, New York

*"The Preferred Stock"*

Here is "de gang." Not as big a one as we have wished for but they have "done their bit,"—men and boys—and have decisively defeated a large army of weeds that somewhat threatened us early in the summer.

# Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes.

**PRICES ARE NET.** All bills are due in 60 days, unless other arrangements are made at time of sale. The prices named in this list are based upon present market conditions, and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want lists calling for larger quantities than are named herein. On the other hand, these are **wholesale prices** and are applicable only to **wholesale** quantities; in no case will we fill retail orders, even though from nurserymen, at these prices. All orders should be made up in 10's or multiples of 10.

**TERMS.** The usual terms are offered to those of established credit or whose responsibility is known to us. Cash security or satisfactory references required from unknown parties. All bills are due in sixty days unless other arrangements are made at the time of sale. All prices are net and not subject to any discount unless specially agreed upon.

**SHIPPING.** Customers are requested to give definite instructions in regard to manner of shipping that they desire. In the absence of special instructions we will use our own best judgment, but with the express understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, the West Shore and Pennsylvania Railways, also, the Rochester and Syracuse interurban trolley line, enabling us to ship in any direction over trunk lines. Express is handled over all four of these routes also.

**BOXES** will be charged for at the rates noted below. We were obliged to make some increases in our box charges since last season, because of the very great advances in the cost of lumber, nails and labor. The increases do not really cover the increased cost to us.

10 ft 30 in. x 30 in...	\$5.00	10 ft. 24 in. x 24 in...	4.00	10 ft. 18 in. x 18 in...	3.25
10 ft. 28 in. x 28 in...	4.80	10 ft. 22 in. x 22 in...	3.75	10 ft. 14 in. x 16 in...	2.75
10 ft. 26 in. x 26 in...	4.40	10 ft. 20 in. x 20 in...	3.50	10 ft. 12 in. x 14 in...	2.25

Add 50c on all sizes of 12 ft. boxes; decrease in same proportion for shorter boxes.

**BALES** will be charged for at actual cost of material used. We make no charge for packing or for delivery to the Railroad station.

**GUARANTY.** We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter of any nursery stock, seeds or bulbs we sell, and we will not be in any way responsible for the crop.

**CLAIMS** for any cause, must be made promptly on receipt of goods. Any stock that is not exactly as represented, may be returned to us immediately on arrival, and we will cheerfully and without question, credit back the unsatisfactory plants, or send others; **but we will not entertain claims made after goods have been once accepted**, or when report is not made within six days after arrival of the stock.

**INSPECTION AND FUMIGATION.** Certificate of inspection will be furnished with every shipment and when required stock will be fumigated.

**SPECIAL NOTICE.** Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers nor sell to planters; we have **no retail trade** of our own, and sell **to the trade only**; in justice to our **only** customers, the Nurserymen, Florists, and Dealers we use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them. **Use printed stationery, or enclose business card.**

**LOCATION.** We are located thirty miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Respectfully,

JACKSON & PERKINS COMPANY.

Newark, New York, September 14, 1919.

# Roses

**W**E are glad to have in sight for this season the largest output of roses that we have ever had. It is not as large as we could wish for taking care of our trade under present conditions but it will "help some" to allay the unprecedented shortage which is apparently in prospect. Rose-growing has always been our leading specialty here and our trade in roses has grown by leaps and bounds until it is now considerably over one million plants annually.

**NOTE.** Roses for early fall shipment must be stripped by hand, a tedious and costly undertaking, and one that is not to be recommended for the good of the plants. Under present high labor cost we are obliged to make an **extra charge for roses shipped so early as to necessitate stripping the foliage**, namely 1½c each for Ramblers and Climbers and 1c each for other kinds.

**GRADES.** For fall delivery we offer only No. 1 grade. For spring shipment we can usually offer No. 1½ (Medium) grade at 30% and No. 2 grade at 50% off these prices.

**Varieties marked \*** are for winter and spring delivery only, being mostly plants which we have had grown on contract for us at other points and which will not be available for fall shipment.

Thomas E. Burrougs, Deep River, Conn.

March 28, 1919.

"The Roses were unpacked to-day and were in fine shape—the best I ever bought."

Burton P. Faragher, Cleveland, Ohio.

April 10, 1919.

"The case with the Roses has come to hand and we are very much pleased with the stock."

John Young, Windber, Pa.

April 22, 1919.

"Enclosed find order for Roses for Fall delivery. I want to place order in time. I got 50 Rose bushes from you last Fall. I had them all in bloom for Easter. They were a grand sight, could have sold lots of them, they had from 10 to 18 blooms on each. Leave it to J. & P. for 'preferred' Roses. See that the order is booked and a copy sent me."

## Clematis

Strong, 2 years old plants, No. 1 grade

We have always been very successful in growing Clematis and they have been quite a specialty with us ever since we have been in business. We think we may safely say that we grow and sell more Clematis than any other nursery in this country, or, indeed, in the world.

## Perennial Phlox

Strong field grown stock

Should not be compared in value with the small plants from two inch pots which are often sold so cheaply. These are one year older.

One of our fields of Hardy Phlox. We grow over 100,000 plants annually of this popular perennial.

“First, I want to thank you for the very fine Lilacs, Deutzias, Roses and Hydrangeas you sent me. Second, I wish you would duplicate the whole order with the exception of the Hydrangeas and send them as soon as you can.”

# Fruit Department

**NO FRUIT TREES FOR EARLY FALL DELIVERY.** Most of our supply of Fruit Trees for this season, except Dwarf Apples, is growing at some considerable distance from our packing grounds and with the extreme shortage of help which we foresee for the fall shipping season, we do not dare promise the digging of special orders for Fruit Trees. The blocks will be cleared in the late fall and brought to our storage buildings for the winter. We offer Fruit Trees only for late fall or spring shipment,—excepting Dwarf Apples which are growing at a near-by farm.

## Apples, Dwarf

On Doucin (English Paradise) Stocks.

Available for early Fall shipment if desired.

For several years past we have budded a considerable number of Apples on English Paradise stocks. This stock dwarfs the mature trees considerably and brings them into fruiting at a much earlier age than standard trees. The dwarf trees are much in demand for planting in city lots where space is limited and for using as fillers in commercial orchards, so as to obtain an income from their early fruiting before the standard trees come into bearing.
